PROFESSIONAL SUMMARY

Motivated first-year BTech student with strong analytical skills and passion for leveraging technology to solve real-world problems. Proficient in Python, HTML, CSS, JavaScript, React.js, and Tailwind CSS with hands-on experience in building functional applications. Demonstrated ability to learn rapidly, collaborate effectively, and deliver results in dynamic environments.

EDUCATION

Newton School of Technology

Bachelor of Technology (BTech)

Expected Graduation: 2029

Bangalore, India

Academic Highlights

Class 12 (CBSE)	76.6%
Class 11	96.4%
Class 10 (CBSE)	91.5%

TECHNICAL SKILLS

Programming Languages:	Python, HTML, CSS, JavaScript, React.js, Tailwind CSS
Core Competencies:	Algorithm Design, Data Processing, Web Development, Problem Solving
Tools & Technologies:	Version Control (Git), Responsive Design, Code Optimization

PROJECTS

Smart Billing System Python

- Engineered an automated billing solution to calculate product totals with dynamic pricing logic
- Implemented robust input validation and error handling for enhanced user experience
- Optimized calculation algorithms for scalability with multiple product categories

Adult Customer Filter System Python

- Developed data filtering application to process customer demographics and identify target segments
- Applied conditional logic and list comprehensions for efficient data manipulation
- Designed modular code structure for easy maintenance and future enhancements

Personal Portfolio Website HTML5, CSS3

- Created responsive portfolio website showcasing technical projects and professional profile
- Implemented modern UI/UX principles with clean layout and intuitive navigation
- Utilized CSS3 features including flexbox and grid for cross-device compatibility

COMPETITIONS & HACKATHONS

Smart India Hackathon 2025 Selected at University Level

- Developed AI-powered telemedicine solution **Rural Telehealth Connect** for bridging healthcare gap in rural areas

- Implemented AI Triage system with offline prescription storage and low-bandwidth video capabilities
- Built hybrid ecosystem integrating patient app, AI health assistant, and verified doctor network for rural-urban healthcare connectivity

ACHIEVEMENTS & RECOGNITION

- **Academic Excellence:** Achieved 96.4% in Class 11, demonstrating consistent high performance
- **Top Performer:** Scored 91.5% in Class 10 CBSE Board Examinations
- **Global Exposure:** Selected for international educational trip to China to study innovation ecosystems and learn from leading global technology companies
- **International Representation:** Selected as a delegate to represent India at the HPAIR Asia Conference (ACONF) 2026, Hanoi, Vietnam

INTERESTS & ACTIVITIES

Technical: Physics problem-solving, exploring emerging technologies, startup ecosystems
Professional Development: Networking events, tech meetups, industry conferences
Personal: International travel, cross-cultural learning experiences, innovation research
